Statement of intent

At IGNITE Alternative Provision, we are committed to the health and safety of our staff, pupils, and visitors. Ensuring the safety of our community is of paramount importance and this policy reflects our dedication to creating a safe learning environment.

We are committed to:

- Providing a productive and safe learning environment.
- Preventing accidents and any work-related illnesses.
- Compliance with all statutory requirements.
- Minimising risks via assessment and policy.
- Providing safe working equipment and ensuring safe working methods.
- Including all staff and representatives in health and safety decisions.
- Monitoring and reviewing our policies to ensure effectiveness.
- Setting high targets and objectives to develop the provision's culture of continuous improvement.
- Ensuring adequate welfare facilities are available throughout our alternative provision.
- Ensuring adequate resources are available to address health and safety issues, so far as is reasonably practicable.

1. Legal framework

This policy has due regard to all relevant legislation including, but not limited to, the following:

- Health and Safety at Work etc. Act 1974
- The Workplace (Health, Safety and Welfare) Regulations 1992
- The Management of Health and Safety at Work Regulations 1999
- The Control of Substances Hazardous to Health Regulations 2002
- The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013
- The Construction (Design and Management) Regulations 2015
- The Personal Protective Equipment at Work Regulations 1992
- The Education (School Premises) Regulations 1999
- The Ionising Radiation Regulations 2017 (IRR17)
- The Food Information (Amendment) (England) Regulations 2019 (Natasha's Law)

This policy has due regard to national guidance including, but not limited to, the following:

- DfE (2022) 'Health and safety: responsibilities and duties for schools'
- DfE (2017) 'Safe storage and disposal of hazardous materials and chemicals'
- HSE (2023) 'Sensible health and safety management in schools'
- DfE (2022) 'First aid in schools, early years and colleges'
- UK Health Security Agency (2023) 'Health protection in children and young people settings, including education'

This policy operates in conjunction with the following provision's policies:

- First Aid Policy
- Risk Assessment Policy
- Personal Emergency Evacuation Plan (PEEP)
- Bomb Threat Policy
- Partial Lockdown Procedure
- Full Lockdown Procedure
- Visitor Policy
- Contractors Policy
- Manual Handling Risk Assessment
- Manual Handling Policy
- Lone Worker Policy
- Staff Wellbeing Policy
- Display Screen Equipment (DSE) Policy
- COSHH Policy
- Asbestos Management Policy
- Infection Control Policy
- Allergen and Anaphylaxis Policy
- Whole-provision Food Policy
- Supporting Pupils with Medical Conditions Policy
- Administering Medication Policy
- Smoke-free Policy

- Provision Security Policy
- Data Protection Policy
- Adverse Weather Policy
- Minibus Policy
- Educational Visits and Provision Trips Policy
- Evacuation Procedure

2. Roles and responsibilities

The headteacher will:

- Have overall responsibility for the day-to-day development and implementation of safe working practices and conditions for all staff, pupils and visitors.
- Set the direction for effective health and safety management.
- Introduce management systems and practices that ensure risks are dealt with sensibly, responsibly and proportionately.
- Review this policy and its effectiveness **annually**.
- Take all reasonably practicable steps to ensure this policy is implemented by the heads of the appropriate departments and other members of staff.
- Designate a competent person who will be responsible for ensuring the provision meets its health and safety duties – the competent person will be the health and safety officer.

The health and safety officer will:

- Assist with the creation and implementation of this policy.
- Be responsible for investigating accidents and incidents, to understand causes and amend risk assessments as required.
- Be the designated contact with the **LA** and the HSE where necessary.
- Support staff with any queries or concerns regarding health and safety.
- Identify hazards by conducting risk assessments.

Supervisory staff and/or department heads will:

- Be familiar with the requirements of health and safety legislation.
- Be responsible for the implementation and operation of the provision's Health and Safety Policy in their department, and for areas of responsibility delegated by the headteacher.
- Be responsible for adhering to the aspects of health and safety that are outlined in their job descriptions.
- Take a keen interest in the Health and Safety Policy and assist in ensuring all staff, pupils and visitors comply with its requirements.

All members of staff will:

- Take reasonable care of their own health and safety, and that of others who may be affected by what they do at work.

- Cooperate with their employers on health and safety matters.
- Carry out their work in accordance with training and instructions.
- Inform the employer of any work situation representing a serious and immediate danger, so that remedial action can be taken.
- Familiarise themselves with the Health and Safety Policy and aspects of their work related to health and safety.
- Avoid any conduct which puts themselves or others at risk.
- Be familiar with all requirements laid down by the governing board.
- Ensure that all staff, pupils and visitors are applying health and safety regulations and adhering to any rules, routines and procedures in place.
- Ensure all machinery and equipment is in good working order and safe to use, including adequate guards, and ensure such equipment is not used improperly.
- Use the correct equipment and tools for the job and any protective clothing supplied.
- Ensure any toxic, hazardous or flammable substances are used correctly, and stored and labelled as appropriate.
- Report any defects in equipment or facilities to the designated health and safety officer.
- Take an interest in health and safety matters and suggest any changes that they feel are appropriate.
- Make suggestions as to how the provision can reduce the risk of injuries, illnesses and accidents.
- Exercise good standards of housekeeping and cleanliness.
- Adhere to their common law duty to act as a prudent parent would when in charge of pupils.

Pupils will:

- Exercise personal responsibility for the health and safety of themselves and others.
- Dress in a manner that is consistent with safety and hygiene standards.
- Respond to instructions given by staff in an emergency.
- Observe the health and safety rules of the provision.
- Not misuse, neglect or interfere with items supplied for their, and other pupils', health and safety.

3. Training and first aid

IGNITE will ensure that staff are provided with the health and safety training they need for their job. This may not always mean attendance at training courses; it may simply involve providing staff with basic instructions and information about health and safety in the provision.

Staff will be provided with regular training opportunities and have access to support where needed. Staff are expected to undertake appropriate CPD in order to further contribute to the running and success of the provision.

Staff will be trained on how to:

- Assess risks specific to their role.
- Meet their roles and responsibilities identified within this policy.

Where relevant to their role, staff will receive specific training in:

- Using industrial machinery.
- Managing asbestos.
- Having responsibility for the storage and accountability for potentially hazardous materials.

First aid

The provision will act in accordance with the First Aid Policy at all times. The provision will ensure that ample provision is made for both trained personnel and first-aid equipment on-site.

The provision will carry out a first aid needs assessment in order to help inform the First Aid Policy and to assess the first aid needs appropriate to the circumstances of the provision.

When conducting a first aid needs assessment, the provision will consider:

- The provision site.
- Pupils and staff members.
- The hazards and risks present.

The provision will teach Health Education to pupils, including further first aid, such as how to administer CPR and the purpose of defibrillators.

The headteacher will ensure that there is an appropriate number of first aid trained staff members working within in each classroom.

The following staff members are trained first-aiders:

Name	Department	Location	Extension no.	Certification expiry date

First aid boxes are located as follows, and the named staff members are responsible for their secure storage and use:

Location	Responsible staff member

4. Contacting the emergency services

The headteacher will certify that procedures for ensuring safety precautions are properly managed are discussed, formulated and effectively disseminated to all staff.

Staff will contact the emergency services in an emergency. Staff will alert their colleagues to the incident, if it is safe and appropriate to do so, using two-way radios.

Where an ambulance is called for a pupil, office staff will contact the pupil's parent. Where necessary, all pupils will be evacuated from the building and taken to the designated emergency assembly point – currently, this is when we get building. Staff will be aware of any pupils who have PEEPs. Staff will be responsible for the safety of pupils and responding to any questions from the emergency services, as best they can.

5. Accident reporting and investigation

All accidents and incidents, including near-misses or dangerous occurrences, will be reported as soon as possible to the health and safety officer using the standard Accident Report Form.

The health and safety officer will be responsible for informing the headteacher if the accident is fatal or a 'major injury', as outlined by the HSE.

More in-depth information concerning reporting accidents and near-misses can be found in the following sections of this policy.

The provision will always record and report work-related injuries to staff members or pupils.

Reporting significant accidents

Significant accidents, as defined in the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013, will be reported to the HSE at the earliest opportunity.

The provision will always report 'specified injuries' to the HSE without delay. These injuries include the following:

- Accidents to employees causing either death or major injury
- Accidents resulting in employees being away from work or being unable to perform their normal work duties for more than seven consecutive days (this seven-day period does not include the day of the accident)
- Fractures, other than to fingers, thumbs and toes
- Amputation of an arm, hand, finger, thumb, leg, foot or toe
- Any injury likely to lead to permanent loss of sight or reduction in sight in one or both eyes
- Any crush injury to the head or torso, causing damage to the brain or internal organs
- Serious burn injuries (including scalding) which cover more than 10 percent of the whole body's surface area or cause significant damage to the eyes, respiratory system or other vital organs
- Any scalping requiring hospital treatment
- Any loss of consciousness caused by head injury or asphyxia

- Any other injury arising from working in an enclosed space which leads to hypothermia or heat-induced illness, or that requires resuscitation or admittance to hospital for more than 24 hours

Additional reportable occurrences include the following:

- The collapse, overturning or failure of any load-bearing part of any lifting equipment
- The explosion, collapse or bursting of any closed vessel or pipe work
- Electrical short circuit or overload resulting in a fire or explosion
- Unintentional explosion, misfire or failure of demolition to cause the intended collapse, projection of material beyond a site boundary, or injury caused by an explosion
- Any accidental release of a biological agent likely to cause severe human illness
- Any collapse or partial collapse of scaffolding over five metres in height
- When a dangerous substance being conveyed by road is involved in a fire or is released
- The unintended collapse of any building or structure under construction, alteration or demolition, including walls or floors
- Any explosion or fire resulting in the suspension of normal work for over 24 hours
- Any sudden, uncontrolled release in a building of: 200kg or more of flammable liquid, 10kg or more of flammable liquid above its boiling point, 10kg or more of flammable gas, or 500kg or more of these substances if the release is in the open air
- Accidental release of any substances which may damage health
- Serious gas incidents
- Poisonings
- Skin diseases including, but not limited to: occupational dermatitis, skin cancer, chrome ulcer, or oil folliculitis/acne
- Lung diseases including, but not limited to: occupational asthma, farmer's lung, asbestosis, or mesothelioma
- Infections including, but not limited to: leptospirosis, hepatitis, anthrax, legionellosis, or tetanus
- Other conditions such as occupational cancer, certain musculoskeletal disorders, decompression illness and hand-arm vibration syndrome

The provision will also report occupational diseases upon receipt of a written diagnosis from a doctor that a staff member has a reportable disease linked to occupational exposure. These include the following:

- Carpel tunnel syndrome
- Severe cramp of the hand or forearm
- Occupational dermatitis, e.g. from work involving strong acids or alkalis
- Hand-arm vibration syndrome
- Occupational asthma, e.g. from wood dust and soldering using rosin flux
- Tendonitis or tenosynovitis of the hand or forearm
- Any occupational cancer
- Any disease attributed to an occupational exposure to a biological agent

Work-related stress and stress-related illnesses will not be reported since they are not usually just one distinct event. RIDDOR stipulates that to be reportable, an injury must have resulted from an accident arising out of or in connection with work.

The provision will only report accidents that are:

- Discrete.
- Identifiable.
- Unintended incidents which cause physical injury.

Reporting procedures

Should an incident require reporting to the Incident Control Centre (ICC) (part of the HSE), the health and safety officer, or a person appointed on their behalf, will file a report as soon as is reasonably possible. The person will complete the relevant report on the HSE website: <http://www.hse.gov.uk/riddor/report.htm>. The provision will not submit written accident reports to the HSE, except for in exceptional circumstances. The provision will report all accidents and injuries online where possible using the above web address. Fatal and specified injuries, as outlined in section 9, may only be reported using the telephone service on 0845 300 9923, open Monday to Friday 8.30am to 5pm.

Reporting hazards

Staff, pupils, contractors and visitors have a legal duty to report any condition or practice they deem to be a hazard. In most cases, reporting should be conducted verbally to the site manager as soon as possible, who will then inform the headteacher as appropriate. Serious hazards will be reported using the appropriate form available in the Main office.

Accident investigation

All accidents, however minor, will be investigated by the health and safety officer and the outcomes recorded. The length of time dedicated to each investigation will vary on the seriousness of the accident. After an investigation takes place, a risk assessment will be carried out, or the existing assessment amended, to avoid reoccurrence of the accident.

The health and safety officer will undertake **monthly** evaluations of all reported incidents. They will then identify patterns and trends in order to take corrective action and minimise the reoccurrence of any incident or illness.

6. Active monitoring system

The provision's procedure for actively monitoring its system will include:

- Annual audits, including fire risk assessments and health and safety audits.
- **Termly** examination of documents to ensure compliance with standards.
- **Termly** inspection of premises, plants and equipment.
- **Monthly** reports and updates to the headteacher.
- External measures, such as surveys by contractors and service providers, along with visits from Environmental Health.

7. Risk assessment

The headteacher has overall responsibility for ensuring potential hazards are identified and risk assessments are completed for all areas in the provision. The health and safety officer will be consulted when risk assessments are being carried out.

Termly assessments of high-risks areas, such as laboratories, will be undertaken. **Annual** risk assessments will be conducted for all other areas of the provision. Risk assessments will consider the needs of staff, pupils, visitors and contractors. Risk assessments will identify all defects and potential risks along with the necessary solutions or control measures.

Risk assessments will be reviewed if:

- There is any reason to suspect that they are no longer valid.
- There has been a significant change in related matters.
- The governing board will be informed of risk assessments, allowing issues to be prioritised and actions to be authorised, along with funds and resources.

The provision will record any significant findings of any risk assessments, including the following:

- The identified hazards
- How people might be harmed by them
- What the provision has implemented to control the risk

The provision will appoint an educational visits coordinator and ensure they receive the training necessary to carry out the role. Where there is no educational visits coordinator, the headteacher will perform this duty. The educational visits coordinator will ensure risk assessments are completed by staff leading day trips or residential stays.

A Risk Assessment Policy will be developed.

8. Slips and trips

In line with HSE guidance, control measures are in place to effectively control slip and trip risks. The provision utilises the following procedure:

- Identify the hazards – risk factors considered include:
 - Environmental (floor, steps, slopes, etc.)
 - Contamination (water, food, litter, etc.)
 - Organisational (task, safety, culture, etc.)
 - Footwear (footwear worn for evening events may not be in line with the Provision Uniform Policy)
 - Individual factors (rain, supervision, pedestrian behaviour, etc.)
- Decide who might be harmed and how
- Consider the risks and decide if existing precautions are sufficient, or if further measures need to be introduced
- Record the findings
- Review the assessment regularly and revise if necessary

The provision will remain especially vigilant to the following hazards:

- Members of staff or pupils running or carrying heavy or awkward items
- Wearing unsuitable footwear
- Poor lighting – particularly where there are uneven surfaces and level changes
- Contamination
- Obstructions, e.g. bags and trailing cables

9. Fire safety

All staff fully understand and effectively implement the fire evacuation plan, which will be implemented in the event of a fire.

The headteacher is responsible for certifying that procedures for ensuring that safety precautions are properly managed will be discussed, formulated and effectively disseminated to all staff. Staff will receive fire safety training to ensure they understand the procedure for fire drills and the use of fire extinguishers.

The provision will test evacuation procedures on a **termly** basis. Firefighting equipment will be checked on an **annual** basis by an approved contractor. Fire alarms will be tested **weekly** from different 'break glass' fire points around the provision, and records will be maintained and held in the **main office**. Emergency lighting will be tested on a **six-monthly** basis, and records will be maintained and held in the **main office**.

The evacuation of visitors and contractors will be the responsibility of the person they are visiting or working for.

The provision will implement its Fire Safety Policy to ensure that staff, pupils and visitors are safe and aware of the potential risks of fire.

10. Sharps

For the purposes of this policy, "**sharps**" is defined as sharp objects such as needles, scalpels, razor blades and broken glass which pose a risk of an accidental penetrating injury or laceration or puncture to skin.

Sharps are not likely to be found commonly on provision premises; however, staff will be vigilant towards the following circumstances in which sharps may be found:

- During provision-based vaccination programmes
- Where an individual within the provision requires injections to manage a health condition
- Where a pupil brings a sharp into the provision
- Where glass is broken within the provision, or broken glass is found on or around the provision premises
- Where drug paraphernalia, e.g. heroin needles, is found on or around the provision premises

In the context of this policy, offensive weapons are not considered sharps. Offensive weapons will be handled in line with the Provision Security Policy.

Handling and disposing of a sharp

All staff members will receive health and safety training as part of their induction, which will be refreshed **annually**. This training will include:

- The safe collection and disposal of sharps.
- Assembling sharps boxes and verifying that they are compliant with the accepted standards.
- The procedure to log incidents and who to inform.
- Immediate action in the event of sharps or needlestick injury.

Where an individual brings a sharp onto the provision premises, e.g. a needle to manage a health condition, they will be responsible for its disposal. The use of needles for medication for an individual on the provision premises will be managed in line with the Administering Medication Policy.

The headteacher will ensure that all pupils are informed that, where they see a sharp, they must alert the nearest staff member immediately and avoid touching the sharp.

Where a sharp is found, the nearest staff member will move all pupils away from the area in order to prevent accidental injuries and will guard the sharp while alerting another staff member to bring the sharps retrieval kit. Sharps retrieval kits will contain:

- Protective gloves.
- A pair of long-stemmed tongs.
- A pincer tool, e.g. tweezers.
- Brush and pan.
- Sharps box for disposal.

Sharps boxes will be marked 'Danger: Contaminated Sharps' and 'Destroy by Incineration'. They will be kept off the floor and out of the reach of pupils. Sharps boxes must not be filled above the designated fill line on the outside of the box. Once filled, boxes will be sealed immediately and removed by a clinical waste contractor or a specialist collection service.

The staff member will check the surrounding area carefully to ensure that no other sharps are in the vicinity. Where the sharp cannot be removed immediately, e.g. due to a delay in obtaining the sharps retrieval kit, the nearest staff member will place a cone or box on top of the sharp to prevent anyone from touching or finding it.

The following procedure will be followed in the event that sharps are found on the provision premises:

- Staff will wear protective gloves and will not handle sharps with bare hands.
- Staff will not handle sharps while barefoot or wearing open shoes, as injury may occur if the sharp is dropped on feet.
- Only one sharp will be handled at a time and, where there are multiple, sharps will be carefully separated using the pair of tongs.
- Sharps will be picked up using the relevant equipment, e.g. pair of tongs or brush and pan for broken glass, and place it into the sharps box, which will be brought to the sharp rather than the other way around.

- The appropriate staff, including the headteacher and site manager, will be informed.
- The incident will be recorded, with details of when, where and by whom the sharp was found.
- Sharps will be disposed of quickly and safely into the provision's sharps bin.

Sharps injury

First aid staff will be trained in handling sharps injuries, and will adhere following guidelines in case of injury from a contaminated sharp:

- Encourage the wound to bleed gently, ideally by holding it under running water
- Wash the wound using water and soap
- Avoid scrubbing the wound while washing
- Avoid sucking the wound
- Dry the wound and cover it with a waterproof dressing
- Seek medical advice

Injuries will be handled in line with the First Aid Policy.

11. Evacuation, invacuation, lockdown and bomb threat procedure

The provision will follow the procedure outlined in the Invacuation, Lockdown and Evacuation Policy and in PEEPs in the event of a crisis.

All staff fully understand and effectively implement the provision's Bomb Threat Policy.

In the event of an emergency, the procedures outlined in the Bomb Threat Policy, the Invacuation, Lockdown and Evacuation Policy, the Evacuation Procedure, and the appropriate Lockdown Procedure will be followed. All staff are trained in handling bomb threats and have easy access to instructions of the procedure, which can be found in the Bomb Threat Policy.

12. Visitors and contractors

The procedures outlined in the Visitor Policy and the Contractors Policy will be implemented by relevant staff when receiving visitors to the provision.

Anyone hiring the premises will be made aware of their health and safety obligations when making the booking.

Contractors will be responsible for the health and safety of their employees and for ensuring safe working practices. They will not constitute a hazard to staff, pupils or visitors to the provision.

13. Construction and maintenance

When undertaking construction or maintenance work, the provision will do so in accordance with The Construction (Design and Management) (CDM) Regulations 2015. Construction work means the carrying out of any building, civil engineering or engineering construction work, including:

- The construction, alteration, conversion, fitting out, commission, renovation, repair, upkeep, redecoration, or other maintenance, decommissioning, demolition or dismantling of a structure.
- The preparation for an intended structure, including site clearance, exploration, investigation (but not site survey) and excavation (but not pre-construction archaeological investigations), and the clearance or preparation of the site or structure for use or occupation at its conclusion.
- The installation, commission, maintenance, repair or removal of mechanical, electrical, gas, compressed air, hydraulic, telecommunications, computer or similar services which are normally fixed within or to a structure.
- The assembly on site of prefabricated elements to form a structure or the disassembly on site of the prefabricated elements which, immediately before such disassembly, formed a structure.
- The removal of a structure, or of any product or waste resulting from demolition or dismantling of a structure, or from disassembly of prefabricated elements which immediately before such disassembly formed such a structure.

The headteacher will ensure that all construction and maintenance projects have a formally appointed principal designer and principal contractor. The headteacher will liaise with the principal contractor to identify if the scope of the project means that it should be notified to the HSE. The headteacher will also ensure that:

- The principal designer and principal contractor are provided with a 'client brief/CDM pre-construction information' at the earliest opportunity, to contain relevant information which should, as a minimum, include the following:
 - What the provision wants built or maintained
 - The site and existing structures
 - Information about hazards, such as asbestos
 - Timescales and budget for the build
 - How the provision expects the project to be managed
 - CDM appointments of the principal contractor and/or principal designer
 - Welfare arrangements
 - Details of the nearest A&E department
- The principal contractor draws up a Construction Phase Plan that explains how health and safety risks will be managed – permission will not be given for construction or maintenance work to begin until this is in place.
- The principal designer prepares a health and safety file containing information that will help the provision manage risks associated with any future maintenance, repair, construction or demolition work.
- The roles, functions and responsibilities of the project team are clearly defined in writing, e.g. in the project plan.
- Sufficient time and resources are allocated, and effective mechanisms are in place to ensure good communication, cooperation and coordination between all members of the project team.
- The principal contractor has made arrangements for adequate welfare facilities for their workers before the construction or maintenance work starts.

- Following completion of the project, the health and safety file is handed over to the headteacher, kept up to date by the health and safety officer, and is made available to anyone who needs to alter or maintain the building.

The headteacher will hold **weekly** progress meetings with the project team to ensure that all members are carrying out their roles as required. Where the project is for a new workplace or alterations to an existing workplace, it must also meet the standards set out in The Workplace (Health, Safety and Welfare) Regulations 1992.

14. Personal protective equipment (PPE)

The provision will provide employees and pupils who are exposed to a hazard at the provision, which cannot be controlled by other means, with PPE where appropriate. All staff and pupils will be provided with protective eyewear in all workshops and laboratories. Visitors will also be supplied with PPE when appropriate.

Staff and pupils will use the PPE provided, and care for it according to the instructions and training given. Supervising staff will ensure PPE fits the wearer properly. Where more than one item of PPE must be worn, the items should be compatible and remain effective. PPE will not be worn if wearing it causes a hazard greater than the hazard it is intended to protect the wearer from.

Pupils will report any loss or defects to their class teacher, who will report it to the site manager for repair. Damaged PPE will not be used and will be disposed of in line with the manufacturer's instructions if it is not possible to repair.

Thorough risk assessments will be carried out by the health and safety officer to determine the suitable PPE to be used for each hazard and these are reviewed on a **termly** basis.

Staff and pupils will receive appropriate health and safety training in order to ensure they know how to properly use, maintain and store PPE, and how to detect and report faults. Equipment manuals are readily available and warning signs are clearly displayed in areas, and on equipment, where PPE is mandatory. When not in use, PPE will be properly stored, kept clean, and in good repair.

The provision will cover the costs of purchase, cleaning and repair for all clothing that is:

- Protective clothing that staff require to fulfil their roles.
- A uniform that employees only wear to work.

The SBM will keep a record of all expenses related to PPE and uniform for HR and finance purposes. In accordance with HM Revenue and Customs (HMRC), the provision will pay any tax and national insurance on uniforms and PPE that are not [exempt](#). Using a [P11D](#) form, the provision will report the cost of the following to HMRC, unless they are exempt:

- Buying the clothes for employees
- Lending clothes to employees
- Cleaning or repairing clothing

The provision will not report the above to HMRC if it is provided as part of a salary sacrifice arrangement. If the provision follows either of the below procedures, we will not report uniform costs as detailed in section 17 to HMRC:

- Paying a flat rate to employees as part of their earnings – either a benchmark rate or a special (bespoke) rate approved by HMRC
- Paying back the employee's actual costs

The provision will always use PPE in line with UK Health Security Agency guidance.

15. Employee clothing

If the provision purchases clothing for employees, or lends it to them, we will:

- Report the costs on P11D form.
- Pay Class 1A National Insurance on the value of the benefit.
- If employees purchase clothing that is necessary to complete their role and the provision reimburses them, the provision will:
- Add the value of the benefit to employees' earnings.
- Deduct and pay PAYE tax and Class 1 National Insurance through payroll.

If employees purchase non-durable clothing, e.g. rubber gloves, and the provision reimburses them, the provision will:

- Add the value of the benefit to the employees' other earnings.
- Deduct and pay PAYE tax (not Class 1 National Insurance) through payroll.

If employees pay to have clothing cleaned or repaired, the provision will:

- Add the value of the benefit to employees' earnings.
- Deduct and pay PAYE tax and Class 1 National Insurance through payroll.

The value of clothing for tax and reporting will depend on whether the provision has given or lent clothing to employees. If clothing is given to employees, the provision will use the higher of the following to work out the value of clothing for tax and reporting purposes:

- The second-hand value of the clothing when it is given to employees
- The initial cost of the clothing

If clothing is lent to employees, the provision will use the higher of the following to work out the value of clothing for tax and reporting purposes:

- 20 percent of the clothing's market value when first provided to employees
- Any annual rental or hire charges the provision pays for it

16. Work-related hazards

Manual handling

Manual handling can prove hazardous when it has the potential to cause a musculoskeletal disorder. This can be due to repetition of the action, the force and/or posture involved in the

completion of a handling task, and/or a person's ability to hold or grasp the particular item in a safe and balanced manner.

The provision will, as far as practicable, will reduce the need for members of staff to carry out any manual handling tasks that involve a risk of injury. Where manual handling tasks are necessary, the provision's Manual Handling Risk Assessment will be implemented. The control measures will be monitored to ensure they are reducing the risk of injury and being implemented correctly.

The capability and circumstances, e.g. age, of staff will be taken into account where manual handling tasks are required. Where there is an unacceptable risk of injury or harm, no manual handling tasks will take place.

All members of staff will receive manual handling information and training as needed.

In order to manage these risks, the provision will implement and follow its Manual Handling Policy.

Working at heights

Policy and procedures concerning employees working at heights will be addressed in the Working at Heights Policy. Staff members are required to sign statements confirming that they have received, read and understood the policy, prior to being allowed to work at heights.

Lone working

Policy and procedures concerning employees' lone working will be addressed in the Lone Worker Policy. Staff members will be required to sign statements confirming that they have received, read and understood the relevant policies, prior to being allowed to undertake lone working.

Stress management

Staff will be aware of the symptoms of stress, including sleeping problems, dietary problems, mood swings, feeling lethargic, fatigue, emotional problems, chest pains and elevated heart rate, lack of focus, inability to concentrate and increased sweating. Staff members who suffer from any of these symptoms are advised to consult their GP as soon as possible. All staff wellbeing matters are managed in line with the Staff Wellbeing Policy.

Display screen equipment

Display screen assessments will be carried out by the health and safety officer for teaching staff and administrative staff who regularly use laptops or desktops computers. Further policy and procedures concerning display equipment are addressed in the Display Screen Equipment (DSE) Policy.

17. Maintaining equipment

The provision will ensure that staff and pupils can expect that any equipment they use is suitable for its intended use and is properly maintained. Inspectors, or a trained health and safety technician, will inspect the following equipment for health and safety issues **annually**:

- All electrical appliances
- All fixed gymnasium equipment
- Any workshop equipment, e.g. lathes and kilns
- All fume cupboards

It will be the responsibility of the health and safety officer to ensure new equipment meets the appropriate standards and conforms to all health and safety requirements. A health and safety technician will be consulted if necessary.

Any portable electrical equipment will be visually inspected on a **daily** basis by the site manager and undergo PAT at intervals suitable for the type of equipment and its frequency of use.

18. Hazardous materials

The provision will act in accordance with the provision's COSHH Policy at all times.

The provision will only purchase hazardous materials from a reputable source, making sure that the relevant material safety data sheet (MSDS) is provided by the retailer on delivery. The provision will only order supplies of hazardous materials when existing stocks are no longer adequate, and in quantities that are no larger than necessary. No chemicals or other hazardous materials will be used without the permission of the headteacher.

The health and safety officer will be responsible for ensuring all products that may be hazardous to health are risk assessed before being used, taking into account the advice on the relevant MSDS or Hazard – the latter is provided from CLEAPPS, recognised by Ofsted and HSE as a definitive basis for undertaking practical work safely.

The site manager, in liaison with the health and safety officer, will ensure that the relevant control measures and appropriate guidelines are put in place to manage the risks identified in risk assessments. Control measures will be checked and reviewed by the site manager on a **termly** basis to ensure continued effectiveness, even when they are known to be reliable.

The headteacher will ensure that at least two staff members are suitably trained in the handling of hazardous chemicals and materials.

All equipment, materials and chemicals will be held in appropriate containers and areas conforming to health and safety regulations. Hazardous substances will be labelled with the correct hazard sign and contents label. Storage life will be considered by department leaders. All COSHH and ionising radiations regulations will be adhered to.

Low-toxic products, such as corrective fluid and aerosol paints, will be stored securely and only used under supervision in a well-ventilated area. Dust and fumes will be safely controlled by local exhaust ventilation equipment.

No staff member or pupil will ever be put at risk through exposure to any hazardous substance used in our practical curriculum. No potentially hazardous materials will be used in lessons without the approval of the health and safety officer. The health and safety officer will ensure staff are appropriately trained to use hazardous materials.

Where a substance has a workplace exposure limit, control measures will ensure that exposure is below the limit.

The site manager will keep an up-to-date inventory of all the hazardous chemicals and materials held at the provision. A **termly** audit of hazardous materials will be undertaken by the site manager with routine surveillance to ensure that they remain safe to store. Unwanted or surplus chemicals and materials, including those that have become unsafe, will be disposed of by a registered waste carrier, in accordance with provision procedures.

19. Asbestos management

In accordance with HSE guidance, an asbestos management survey was undertaken on **date** by **name of surveying organisation**, which is a United Kingdom Accreditation Service accredited surveying organisation. As a result of the asbestos management survey, risks were identified and dealt with on a priority basis. This survey will be undertaken again following any changes of use to a location or prior to any significant building work.

Further details concerning the management of asbestos can be found in the Asbestos Management Policy.

20. Cleaning

Contract cleaners will be monitored by the site manager. The standard required will be clear in the service level agreement held with the contracted cleaners. Special consideration will be given to hygiene areas.

Waste collection services will be monitored by the site manager. Special consideration will be given to the disposal of laboratory materials and clinical waste.

The headteacher is responsible for ensuring that the provision is at a safe temperature for staff and pupils to work in. The provision will adhere to the provisions as outlined in The Education (Provision Premises) Regulations 1999, which state the following:

Areas	Temperature
Where there is a below-normal level of physical activity due to ill health or a physical disability, e.g. isolation rooms; however, this does not include sleeping accommodation	21°C
Where there is a normal level of physical activity associated with teaching, private study or examinations	18°C
Where there is a high level of physical activity, e.g. PE sports halls, washrooms, sleeping accommodation and circulation spaces	15°C

21. Infection control

The provision will actively prevent the spread of infection through the following measures:

- Routine immunisation
- Maintaining high standards of personal hygiene and practice
- Maintaining a clean environment

The provision will keep up to date with national and local immunisation scheduling and advice. All pupils' immunisation status is checked at provision entry and at the time of any vaccination. The provision encourages parents to have their children immunised.

All staff will be subject to a full occupational health check before starting employment at the provision.

The provision will ensure that arrangements are in place to minimise any health risks, e.g. flu, by ensuring hygiene standards are maintained and pupils and staff are not permitted in provision if they are unwell. Staff and pupils displaying signs of infection will be sent home and recommended to see a doctor.

Further information concerning the provisions' policies and procedures addressing infection control can be found in the Infection Control Policy.

22. Allergens and anaphylaxis

The provision's Allergen and Anaphylaxis Policy will be implemented consistently to ensure the safety of those with allergies.

Parents will be required to provide the provision with up-to-date information relating to their children's allergies, as well as the necessary action to be taken in the event of an allergic reaction, such as any medication required. Staff will also be required to provide the headteacher with a list of their allergies. Information regarding pupils' and staff members' allergies will be collated and stored securely.

Under The Human Medicines (Amendment) Regulations 2017, the provision is able to purchase adrenaline auto-injector (AAI) devices without a prescription, for emergency use on pupils who are at risk of anaphylaxis, but whose device is not available or is not working. The provision will purchase spare AAIs from a pharmaceutical supplier, such as the local pharmacy.

The headteacher and catering team will ensure that all pre-packed foods for direct sale (PPDS) made on the provision site meet the requirements of Natasha's Law, i.e. the product displays the name of the food and a full, up-to-date ingredients list with allergens emphasised, e.g. in bold, italics or a different colour. The catering team will also work with any external catering providers to ensure all requirements are met and that PPDS is labelled in line with Natasha's Law. Further information relating to how the provision operates in line with Natasha's Law can be found in the Whole-Provision Food Policy.

Staff will receive appropriate training and support relevant to their level of responsibility, in order to assist pupils with managing their allergies.

Further information relating to the provision's policies and procedures addressing allergens and anaphylaxis can be found in the Allergen and Anaphylaxis Policy.

23. Medication

The provision's Supporting Pupils with Medical Conditions Policy will be read, understood and adhered to at all times. Staff will receive **annual** training in supporting pupils with medical conditions.

The provision will obtain notification from parents regarding any medication that pupils are required to take. Only trained staff will administer medication. The provision's Administering Medication Policy will be followed at all times. A record will be kept of any medication that pupils take – this will be checked prior to administering any non-prescription medication.

24. Smoking

The provision is a non-smoking premises and no smoking will be permitted on the grounds. The provision's Smoke-Free Policy will be read and understood by all staff. All staff, pupils, visitors and contractors will be made aware of the policy.

25. Security and theft

Steps taken to reduce security risks will be addressed in the Provision Security Policy.

CCTV systems will be used to monitor events and identify incidents taking place. CCTV systems may be used as evidence when investigating reports of incidents. CCTV footage is personal data, so will be handled in accordance with the provision's Data Protection Policy.

Money will be held in a safe and banked on a weekly basis to ensure large amounts are not held on site. Money will be counted in an appropriate location, such as the main office, and staff should not be placed at risk of robbery.

Staff and pupils will be responsible for their personal belongings and the provision accepts no responsibility for loss or damage. Thefts will be reported to the police and staff will be expected to assist police with their investigation.

All staff will be expected to take reasonable measures to ensure the security of provision equipment being used. Missing or believed stolen equipment will be reported immediately to a senior staff member.

The provision will install access control and security measures to ensure the safety of the provision, e.g. security glazing on windows. The provision will ban individuals from the premises if they pose a risk to any member of the provision community. The provision will consider any risks that are posed by their local context, e.g. recent arson attacks.

26. Severe weather

The provision will act in accordance with the Adverse Weather Policy where the weather could pose a risk to individuals on provision site.

The headteacher, in liaison with the governing board, will make a decision on provision closure due to severe weather on the grounds of health and safety. If a closure takes place, the governing board will be promptly informed.

27. Safe use of minibuses

Health and safety policy and procedures concerning provision minibuses will be contained in the provision's Minibus Policy. The health and safety officer will be responsible for arranging the annual maintenance of the minibus, including MOTs and road tax.

The driver will have a current license, be aged 25 years or over and hold a full licence in Group D or passenger carrying vehicles. Drivers will complete the relevant form from the **main office** and supply a photocopy of their driving licence.

If passengers are paying a charge, the minibus permit will be clearly displayed in the vehicle.

Internal damage to the minibus will be the responsibility of the individual or organisation using the minibus. The provision will decide who is responsible for covering the cost of any repairs.

The minibus will carry strictly one person per seat and seat belts will be worn at all times.

Fines accrued will be paid by the driver at the time the offence was committed.

Starting and closing mileage, along with any potential risks or defects identified, will be reported upon return to the provision.

The following staff members hold the required licence and have completed specific training allowing them to drive the minibus:

Staff member's name	Staff member's role

28. Trips and visits

Health and safety policy and procedures concerning provision trips and visits, including trips abroad, are contained in the provision's Educational Visits and Provision Trips Policy.

29. Near misses

A 'near miss' is an event not causing harm but has the potential to cause injury or ill health.

If staff members, pupils, contractors, or visitors see or are involved in a near miss, they will report it in order to allow consideration of how to prevent a possible accident happening in the future.

Reporting will be conducted verbally to the health and safety officer as soon as possible, who will then inform the headteacher as appropriate.

The provision will report near misses that constitute as dangerous occurrences to the HSE. A 'dangerous occurrence' includes any incident which results in requiring hospital treatment or further attention.

All accidents and near misses, however small, will be reported and investigated by the health and safety officer and the outcomes recorded. The length of time dedicated to each investigation will vary depending on the seriousness of the accident.

After the investigation takes place, a risk assessment will be carried out, or the existing assessment amended, to avoid reoccurrence of the accident.

30. Monitoring and review

The effectiveness of this policy will be monitored continually by the headteacher and the governing board. Any necessary amendments will be made immediately.

The next scheduled review date for this policy is **16/07/2025**.

The provision will establish a monitoring system that is backed up by performance measures and this will be reviewed following an incident.
